Standard options and Custom Shop options.				
We offer so many standard and custom shop options, that it is easy to see why some players get the two confused.				
Guitars that have custom shop options receive special upgrades and documentation, so it is important to know which options are which				
Examples of standard options:				
> If a customer changes the hardware color, it is a standard option				
> If a customer picks another finish color like Burgundy Red OFC, Nirvana Black OFC or Black Stained HP or Sunburst HP, or also a metallic color, it is a standard option				
> If a customer chooses a HipShot D-Tuner, it is a standard option				
> If a customer chooses different security locks, it is a standard option				
> If a customer chooses another pickup, for example a EMG PU instead of a Seymour Duncan PU, it is a standard option as long no pickup moulding is required.				
> If a customer chooses a lefthand instrument, it is a standard option				
These are examples of standard options that do not fall within the category of custom shop options.				
Guitars made with true custom shop options qualify for the following documentation and free upgrades:				
> Custom Shop Certificate				
> Flight Case upgrade				
We will also post the custom shop instrument on our website in the custom shop section.				
Custom Shop hourly rate for special requests				
Hourly rate				148,00 €
Individual string setup including Pleked fingerboard				
standard string setting Pleked for Electric / Hollowbody Guitars : Nickel strings 009",011",016",026",036",046"

	Framus logo headstock LED's		375,00 €
	3 Laser LEDs on headstock		786,00 €
	> 2 holes are drilled on the top end side of the headstock to fit an LED on each and a 3rd LED is mounted on the center of the headstock's back side. The lasers point away from the headstock and their configuration is almost shaped like a triangle. The lasers are activated by a toggle switch that is independent from the toggle switch used for the fingerboard LEDs.		
	Extra charge for additional toggle switch to separately activate the headstock and fingerboard LEDs. (available in : blue, green, red, white, yellow) (Sharkfin Inlay's are not available with LED's)		136,00 €
	<u>Important :</u>		
	All Framus Custom Shop necks are fitted standard with tiger stripe ebony fingerboards
