introducing  
the all-new...

**Garrison**  
GUITARS  
**AG SERIES**

with the griffiths  
active top brace™

The Griffiths Active Top Brace replaces all the guitar's top braces and bridge plate with a single, glass fibre unit. A single unit provides more unified transmission of vibrations, increase bass response, volume and sustain. Compare these guitars with ANYTHING else in this price range and you will not be able to deny the advantages. This technology, coupled with more traditional wooden neck blocks, end blocks, brings our competitive advantage to a whole new price point.
