

The Mirror

Take a look in the mirror
And tell me what you see
The reflection never lies
An image that pleases me

Taking pride of place
Upon our wall
Part of the family
It's seen it all

Pausing for moments
Stopping the time
To reflect an image
Of yours and mine

Cherish these times
If sometimes too short
To look at each other
An emotion and a thought

The love for each other
Now and in years to come
A never ending story
Our beauty and our glory

Generations will follow
To enjoy these moments, too
The magic of reflection
For me and for you

Chorus

The mirror
A place to be
For us to see
What we've become

The mirror
Time goes by
For you and I
Forever together
